Excellence in Welding Technology

www.vancemetal.com

Vance Metal Fabricators works to stay a step ahead of others in the Fabrication Industry by using state-of-the-art equipment operated by our experienced staff.

Processes include:

Laser, Plasma and Oxy/Fuel cutting
Shearing and Sawing
Punching
Forming
Welding
Drilling, Tapping, Machining
Fabrication
Painting
Assembly and Packaging

Facilities List:

- 70,000 square foot facility
- Computer Integrated Manufacturing
- Lifting capacity 12,000 #
- AutoCAD 2004, Inventor
- 1 Plasma Cutting Machine MG/Messer; 10' x 20' with Pronest software
- 1 Cincinnati 2000 watt Laser
- 5 Hydraulic/Mechanical Press Brakes (70-250 ton)
- 1 Hydraulic Shear
- 1 Whitney Punch/Fabricator
- 3 Power Rolls
- 2 DOALL Saws
- 26 Mig/Tig Welding Stations
- Sandblast, Bead Blast
- Helium Leak Check
- Wet Paint System
- Drill Presses, Overhead Cranes, Forklifts etc.
- Partner arrangements with Precision and Heavy Machining, Powder Coating, Heat Treat, Plating, and other related Service
